

# Dos Circular: iO (In/Out)

These sleek ring fixtures come in diameters of 3, 4, 5, 6, and 8 feet, offering options for both inward and outward designs. Available in three color temperatures, each fixture allows separate switching for inward and outward LEDs.

The proprietary acrylic lens of Dos delivers broad, even illumination, ensuring every corner of your space is bathed in light with clarity and style.

Whether you opt for surface or remote mounting, central or separate driver options, Dos provides customizable installation solutions tailored to your specific needs.
