

# Dos Circular

These captivating circles illuminate spaces with both functionality and flair, making them ideal task-lighting solutions for any setting. Crafted with the same width extrusion as Uno, Dos Circles feature a higher 2-inch profile, accommodating both downlight and uplight components. The proprietary acrylic lens of Dos delivers broad, even illumination, ensuring every corner of your space is bathed in light with clarity and style.

Whether you opt for surface or remote mounting, central or separate driver options, Dos provides customizable installation solutions tailored to your specific needs.
