

IL7801 wiring diagram

Wiring for 7 conductor cord:

- White: Neutral
- Black: Downlight Switch leg
- Red: Up light switch leg
- Green: Ground
- Orange: No function
- Purple: 0-10V dimming positive
- Gray: 0-10V dimming negative

Note: Black and Red can be wired to same circuit if there is not a separate switch.

Top and bottom will dim on same dimmer.
