MOUNT INFO
Swing features a die cast backplate with a threaded 1/2” conduit fitting at one end for direct connection to flexible conduit, which provides the smallest ballast compartment profile, and avoids unsightly plates or covers on walls or ceilings. Use a third party 1/2” conduit fitting and maximum 14 AWG wire for communication to the ballast. Detailed installation instructions are available at delraylighting.com.

J-Box MOUNT
SW5 fixture with standard driver housing requires a 3 in. mud ring to mount to standard J-box, the holes in line with the direction of the fixture. Order SW200, available in S–silver or W–white.
