DOS CIRCULAR LED: IN/OUT

Dos iO

Delray's popular Dos line of direct/indirect circular LED fixtures is now offered in/out (iO). Comprised of an extruded aluminum outer housing, with inside and outside frosted acrylic lenses, these fixtures are available in 3, 4, 5 and 6 ft. diameters.

White LEDs are 90 CRI Nichia tight bin chips on aluminum clad boards, available in 3000, 3500 and 4000° color temperatures. Static color LED options include red and blue; or color-changing Nichia custom RBG boards with DMX interface. The inside and outside LEDs may be separate-switched, and may be ordered with one color inside and a different color outside.

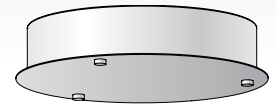

Dos iO model nos.

UDCi03 – 3 ft., 8,270 delivered lumens
